¹ Counties not listed have no reported illnesses for the year 2005

² Cases classified as agricultural are those in which people were exposed to pesticides that had been or were being used to contribute to the production of an agricultural commodity

³ “Def/Pro” indicates that after evaluation, cases were classified as definitely or probably related to pesticide exposure.

⁴ “Pos” indicates that after evaluation, cases were classified as possibly related to pesticide exposure.

⁵ This summary omits one case in which pesticide exposure could not be established as either agricultural or non-agricultural.
